

Wiring & Binding Instructions

Heng Long 2.4ghz Kit (4th Gen)

Please note: This board pictured is not compatible with the previous Heng Long 2.4ghz radio systems, and will only work with the 4th Gen radio in this kit.

Binding Procedure:

1. Ensure your tanks battery is fully charged and plugged in.
2. Ensure radio has fresh batteries.
3. Press and hold the frequency switch on the tank.
4. Press and hold the 'Engine Start Up' button on the radio.
5. Now turn on tank and then turn on radio
6. Hold for 3 secs and then release.
7. Tank should now start up and your radio is bound.
